

PRINCE2 Agile® Practitioner

Duration: **2 Days** Course Code: P2A

Overview:

This course covers the qualification from AXELOS which represents an extension to PRINCE2®. The course is equally divided between practical exercises and theory as it examines how to use PRINCE2® in an agile context. The course ends with an exam that allows you to achieve PRINCE2 Agile® Practitioner status.

Objectives:

- The course explains to delegates how to tailor PRINCE2® to work in the best way possible in an agile context.
- It looks at how to blend and weave the principles, processes and themes of PRINCE2® with many of the common ways of working in an agile way.
- It examines how to configure PRINCE2® when in different situations and how to incorporate the agile frameworks, behaviours, concepts and techniques in the best way possible to increase the chances of successful project delivery.

Prerequisites:

- Candidates can sit PRINCE2 Agile Practitioner if they hold any of the following project management certifications: PRINCE2 Foundation, PRINCE2 Agile Foundation, Project Management Professional (PMP)*, Certified Associate in Project Management (CAPM)* and IMPA Levels A,B, C and D (Certified Project Director).
- There is very little time spent on recapping PRINCE2® and therefore out of date knowledge or gaps in understanding of PRINCE2® will put the delegate at a disadvantage as PRINCE2 Agile® builds on the candidates existing PRINCE2® knowledge.

Testing and Certification

- The PRINCE2 Agile® Practitioner exam is a 2½ hour, open book, objective testing style exam. The exam is taken during the afternoon of the third day and you are permitted to use your PRINCE2 Agile® Manual during the exam. The exam is structured using 5 questions with a total of 50 marks.

Content:

- Fundamentals
- Projects and BAU
- What is agile?
- The PRINCE2 Agile® Journey
- The PRINCE2 Agile® Hexagon - what to fix and what to flex
- Starting Up a Project and Initiating a Project
- Assessing value, Cynefin
- Requirements and User Stories
- Prioritisation (including MoSCoW)
- Change (including the feedback loop)
- Organisation
- Servant Leadership
- Principles and behaviours
